NMVTIS Information

Getting Started!

What is NMVTIS?

NMVTIS is a system that allows the Division of Motor Vehicles to inquire titling information on any motor vehicle that can be licensed (cars, trucks, motorcycles) from a national database.

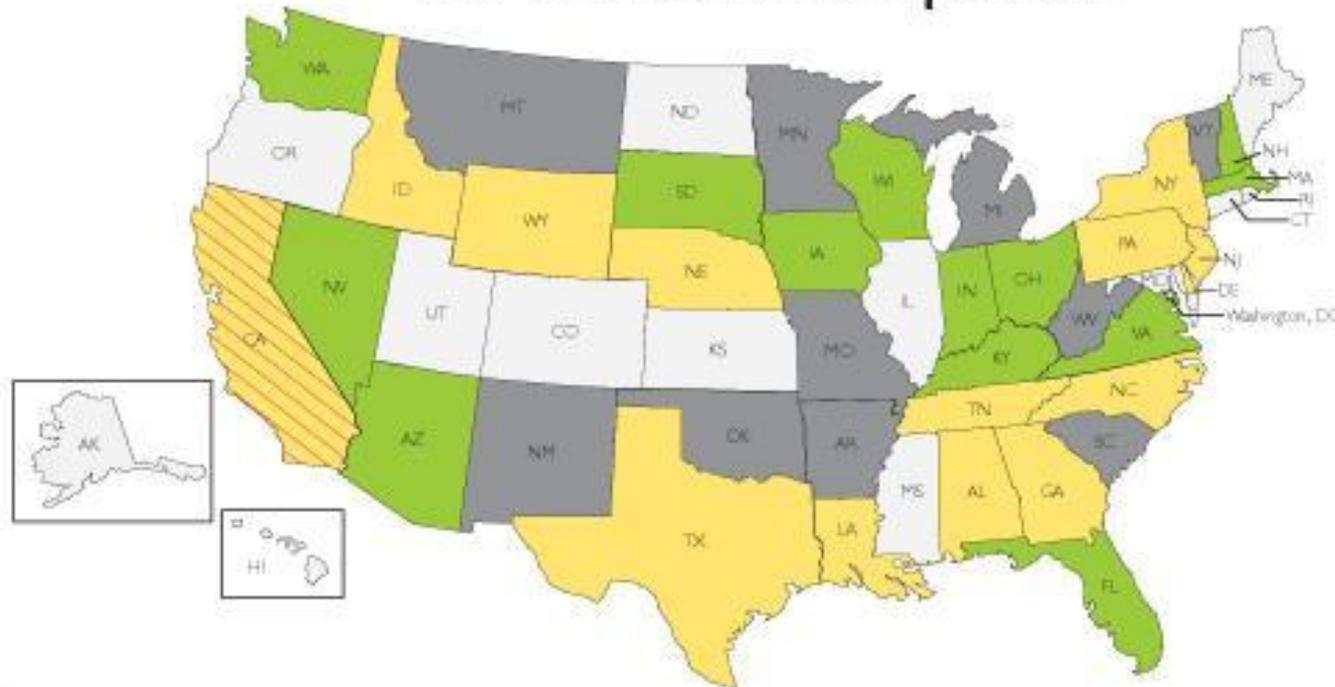

Why is NMVTIS important?

- ◆ 1.3 million vehicles are stolen each year, with only a little more than half recovered
- ◆ Auto theft alone costs consumers and insurance companies **\$8 billion** per year!
- ◆ Some 570,000 vehicles were affected by hurricanes in 2005. These vehicles are now perfect targets for vehicle title fraud.
- ◆ Growing trend – “VIN Cloning” NMVTIS prevents this by “tracking” prior states with titling records for each motor vehicle

March 22, 2009

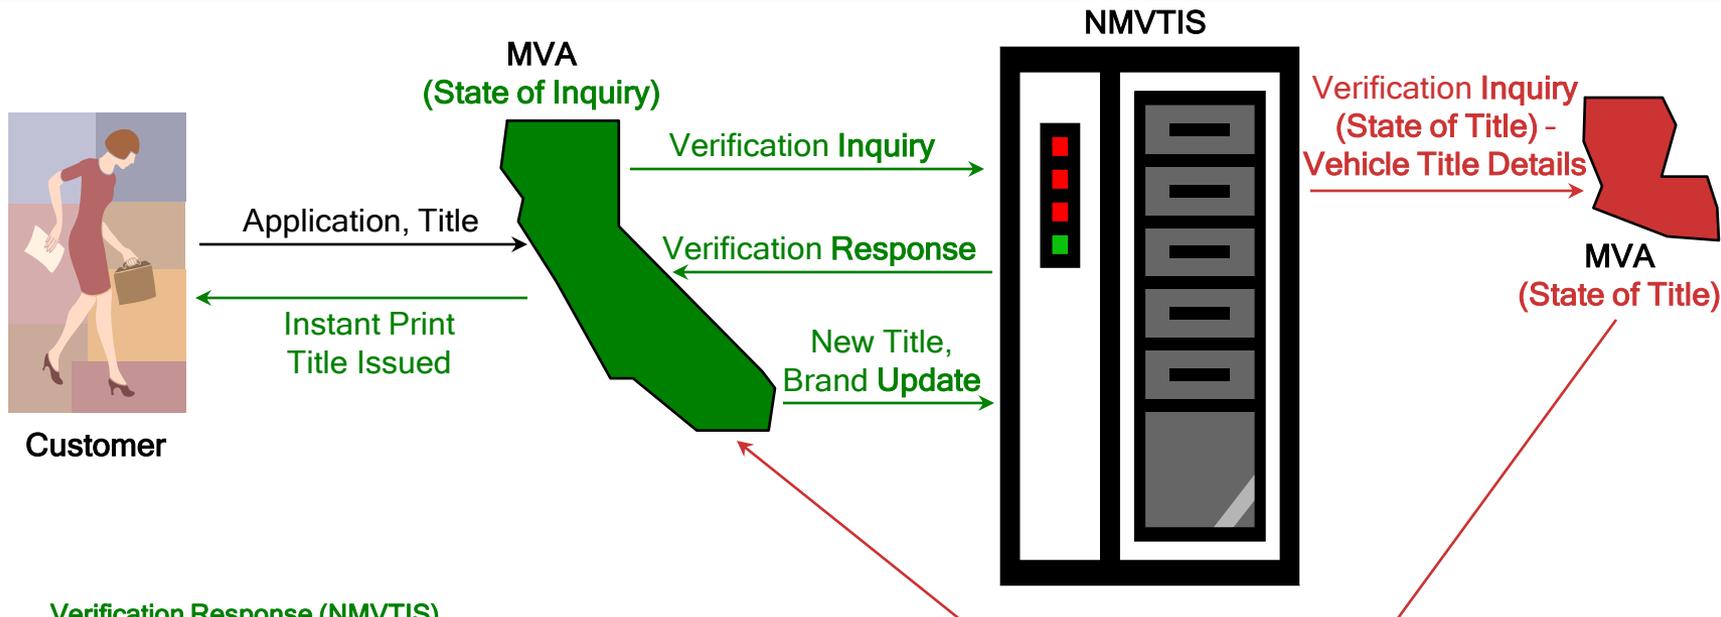

NMVTIS Participation

- **13 States Participating**—states that provide data and inquire into the system before issuing new titles
- **14 States Providing Data Only**—states providing data but not making inquiries
- **10 States in Development**
- **14 States Not Participating** (includes the District of Columbia)
- / **States providing data to the system but currently restricting NMVTIS from releasing the data to consumers**

Currently, 73% of the
U.S. vehicle population
is represented in the system

NMVTIS Overview

Verification Response (NMVTIS)

- VIN
- State of Title
- Odometer
- Title #
- Title Issue Date
- Make / Model Year

Verification Response (State of Title)

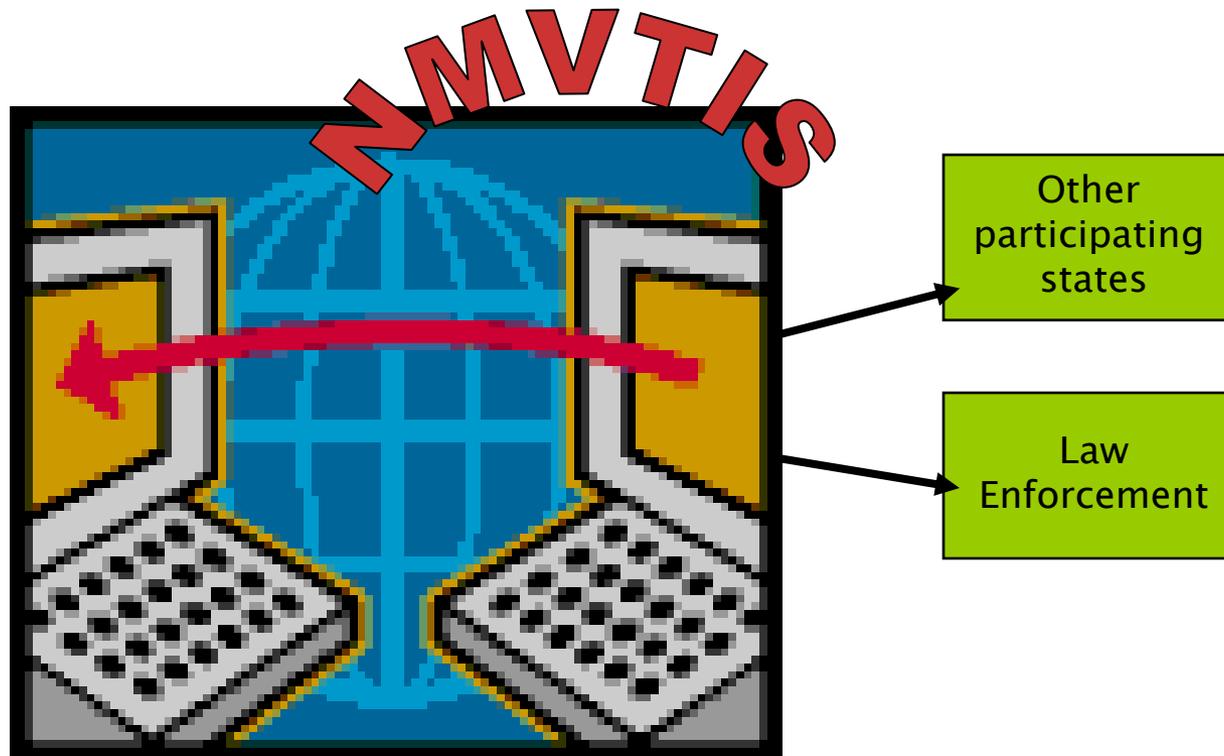

- Data elements listed above; plus
- Title Status
- Lien Holder
- Gross Vehicle Weight
- Major Color
- Etc.

How it works

The DMV:

- ◆ Receives the customer's title application documentation for an out of state title
- ◆ Sends an inquiry to NMVTIS via webpage to verify the title document & vehicle information
- ◆ NMVTIS responds with data on the vehicle, the history of states it has been titled in, any brand information, or whether the vehicle is stolen
- ◆ Based on the information, a decision may be made on processing the application for title

Who CAN Receive Information from NMVTIS?

NMVTIS State Web Inquiry Application User Instructions

Your user id will be the same as your Ctrl-Alt-Del
The beginning password is

password123

It will require you to change your password at first
login. Use the link below to access the page.

Policy and Procedures for NMVTIS

Current DMV policy requires that only out-of-state titles must be checked through NMVTIS prior to being entered into the system for instant or batch printing

- If all data appears to match the result, then it is ok to instant or batch print the title. Title work MUST be stamped “NMVTIS Check OK” with initials of the person who checked it prior to title being instant or batch printed.
- If a theft notice or any information on the submitted title documentation does not match the result, you must follow chain of command for proper DMV NMVTIS Helpdesk notification. At this time, the inquiry result page should be printed and attached to title work and sent to the NMVTIS Helpdesk for further investigation.
