At the time of occurrence or prior to beginning the work, the Contractor shall furnish the Engineer with an itemized list of equipment, labor and materials for which additional compensation will be claimed. The Contractor shall afford the Engineer every facility for keeping actual cost of the work. The Contractor and Engineer shall compare records and bring them into agreement at the end of each day. Failure on the part of the Contractor to afford the Engineer proper facilities for keeping strict account of actual cost will constitute a waiver of the claim for such extra compensation except to the extent that it is substantiated by Authority records. The filing of such notice by the Contractor and the keeping of cost records by the Engineer shall in no way be construed to establish validity of the claim. In the event the Contractor's claim contains Contractor-furnished data which cannot be verified from the Authority's project record, such data shall be subject to complete audit by the Authority or its authorized representative if it is to be used as a basis for claim settlement.

Add the following:

105.18 Contractors Parking Access

All employees' and Contractors' vehicles and equipment not needed in the execution of the work shall be parked in these designated areas.

Tracking of mud and debris onto the Turnpike will not be permitted.

U-turns will not be permitted. This is a traffic violation and tickets will be issued.
