

Bridge Deck and Roadway Analysis Group

It is the mission of this group to conduct field investigations and tests in order to provide information to insure the travelling public that they are riding on the smoothest, safest and longest lasting bridges and roadways possible.

Request Forms:

Forms for requesting the test can be found here:

<http://www.transportation.wv.gov/highways/mcst/Pages/tbox.aspx>

Look under Bridge and Roadway Analysis Worksheets.

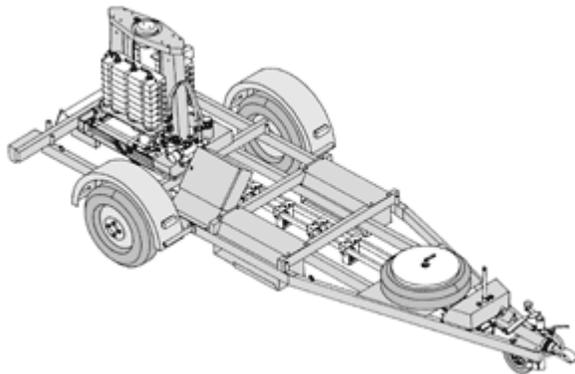

Primary Contacts:

Below is a list of the primary contacts for each test.

Bridge Deck Inspections:

Falling Weight Deflectometer Testing:

C. J. Skeens, TET

Phone: 304 558-9871

E-mail: Clifford.J.Skeens@wv.gov

Friction Testing:

Steve Marshall, TET

Phone: 304 558-9847

E-mail: Steven.O.Marshall@wv.gov

Smoothness Testing:

Clifford J. Skeens, TET

Phone: 304 558-9871

E-mail: Clifford.J.Skeens@wv.gov

Mini-Sid and Cross Hole Sonic Logging:

Jesse Sizemore, HWENGTR

Phone: 304 558-7476

Email: Edward.J.Sizemore@wv.gov
