Degree of Particle Coating of Bituminous-Aggregate Mixtures

ASTM D2489

Lab Number:

Date Tested:

Technician:

Cold-Mix Type:

Cold-Mix Source:

Cold-Mix Stockpile Location:

Test Sample Number 1

(A) Total Number of Particles:

(B) Number of coated particles:

(C) Percentage of Coated Particles = $(B / A) \times 100$:

Test Sample Number 2

(D) Total Number of Particles:

(E) Number of coated particles:

(F) Percentage of Coated Particles = $(E / D) \times 100$:

Average Percent Coated Particles = $(C + F) / 2$:

Pass / Fail:

97% Coating Requirement for First Week After Stockpiling
95% Coating Requirement Up To 90 Days After Stockpiling

Remarks:
