West Virginia Division of Highways

Degree of Particle Coating of Bituminous-Aggregate Mixtures

ASTM D2489

Lab Number:	Date Tested:
Technician:	Cold-Mix Type:

Cold-Mix Source:

Cold-Mix Stockpile Location:

Test Sam	ple Number 1

(A) Total Number of Particles:

(C) Percentage of Coated Particles = $(B / A) \times 100$:

(B) Number of coated particles:

(E) Number of coated particles:

Test Sample Number 2

(D) Total Number of Particles:

(F) Percentage of Coated Particles = (E / D) x 100:

Average Percent Coated Particles = (C + F) / 2:

Pass / Fail:

97% Coating Requirement for First Week After Stockpiling 95% Coating Requirement Up To 90 Days After Stockpiling

Remarks:
